

Ismail Abderrezague

Skilled full stack developer with expertise in building scalable, user-focused solutions using JavaScript technologies. Experienced in both front-end (web + mobile) and back-end development, currently pursuing an engineer's degree in Computer Science. Actively working on a conference management system project as part of an internship, while also freelancing.

Work Experience

Full Stack Web Developer Freelance	Self-employed Algiers, Algeria	March 2025 - Present
- Build responsive, high-performance interfaces with a focus on user experience and modern design practices. - Design and development of full-stack web applications tailored to client needs using Next.js for the frontend and Nest.js for the backend. - Collaborate closely with clients throughout the development lifecycle to ensure alignment with business goals.		

Full Stack Developer Internship	Higher National School of Computer Science Algiers, Algeria	September 2024 - June 2025
- Collaborating in the early stages of a web application development project aimed at managing academic conferences. - Use of UML modeling to design the architecture of the application. - Utilizing technologies such as Next.js and Node.js to develop a scalable and customizable solution. - Involved in iterative planning, ensuring the platform meets institutional needs and user-specific functionalities.		

Odoo Developer Freelance	Finoutsource Algiers, Algeria	November2024 - March 2025
- Development of Python scripts to automate data entry into client databases, reducing manual effort and errors. - Customization of Odoo modules to match clients' business needs, ensuring smooth integration and ease of use. - Integration of e-payment via SATIM to enable secure and seamless online transactions within Odoo. - Creation of custom reports based on client requirements, providing clear and insightful data visualization.		

Frontend Developer (mobile) Internship	Hr Technology Algiers, Algeria	August 2023 - October 2023
- Designed and developed a cross-platform mobile application for large cargo delivery, enhancing user experience and operational efficiency. - Led the front-end development using React Native, ensuring a smooth and responsive user interface.
